

All Nations Cheese Organization®

Product Line Change Announcement – CHANGE OF UPC & GTIN on Ile de France and St Agur cheeses

As part of the transition from ANCO to Alouette Cheese USA, we are updating Ile de France and St. Agur products to conform with GS1 standards by moving these products under our Family Code.

Starting the week of February 27, 2017, we will begin to transition **ILE de FRANCE** cheeses and **St Agur** to new **GTIN and/or UPC** (where applicable).

We expect to have a short transition period where some SKU's have the old/new GTIN/UPC being supplied at the same time.

This transition time should be no longer than 2 weeks.

Please see table on page 2 summarizing the changes for each SKU:
