New Packaging Announcement

Cathedrale de Meaux

Stain-glass design comes from the famous Cathedrale in the Meaux region of the Paris basin, this brie is made from rich cow's milk. It is a soft white cheese with a smooth, velvety pure white rind. This paste is bright yellow, indicating its triple cream quality and allowing it to take on the traditional creamy flavors of a Brie. The flavor profile of this brie will have fresh cream notes, and buttery flavors.
